SUMMARY OF IG/CM MEETING

7 July 1983

1. The sixth IG/CM meeting was convened at 1400 hours, 7 July 1983 by the Chairman (DUSD-Policy), General Richard G. Stilwell, USA (Ret.). A listing of individuals attending is attached. The sole agenda item was the Countermeasures (CM) Organizational Study.

2. The Chairman opened the meeting by emphasizing its purpose and making related observations:

a. Principally, the meeting was to give attendees an opportunity to identify any remaining substantive comments concerning the third draft of the CM Organizational Study; to obtain agency representatives consensus on proposed fixes to problem areas and to establish a date for completion of the study product. The Chairman requested that typographic or purely editorial changes be provided the Study Director, [redacted] not later than close of business (COB) 12 July 1983. STAT

b. General Stilwell stated his desire to have the finished study ready for forwarding to the DCI during the week of 18 July 1983. Accordingly, the COB 12 July date for final comments on the text will be absolute. There was no dissent on this course of action.

c. General Stilwell advised attendees that Mr. Martin Anderson had requested that the IG/CM Chairman report to the PFIAB on the CM Organizational Study. General Stilwell will do so at 1430 hours, 12 July 1983.

d. The Chairman praised the efforts of [redacted] in coordinating and developing the Study to its present form. He observed that at the very minimum the final product will serve as a valuable data base and a source of continuing agenda for the IG/CM. STAT

3. The Chairman opened the floor for the comments of attendees. Representatives from Navy, DOJ, NSC, State, SECOM and OSD commented on aspects of the Study for which their agencies were seeking changes to the third and final draft text.

a. Proposed fixes were discussed, decisions made and attendee concurrences received.

b. General Stilwell advised attendees he was reserving the right to make some editorial and possible format changes to the

Executive Summary. He stated that, time permitting, the revised Executive Summary would be provided for review prior to study publication.

3. The Study Director will coordinate to make the requisite changes to the overall Study and will strive to have a final product ready for the Chairman's transmittal to the SIG(I) Chairman during the third week of July 1983.

4. The meeting adjourned at 1500 hours.
